### Question 1: Climate Factors

Sample Question:

Identify and explain three main climatic factors affecting the climate of the Sahara Desert.

Model Answer (from memo):

- **Latitude:** The Sahara lies near the Tropic of Cancer, resulting in high temperatures due to direct solar radiation.
- **Altitude:** The plateau's elevation influences temperature variations, with higher areas being cooler.
- **Distance from the Sea:** The desert's interior location results in low humidity and scarce rainfall, as moist air masses do not reach inland areas.

Tips:

- Clearly define each factor.

- Use specific examples.
- Link factors directly to climate characteristics.

## Question 2: Landform Formation

Sample Question:

Describe how a river forms a delta.

Model Answer:

A delta forms when a river reaches a standing body of water, such as an ocean or lake. The river's flow slows down, causing sediments to be deposited at the mouth. Over time, these sediments accumulate, creating landforms such as distributaries, marshes, and swamps, resulting in a delta.

Key Points from Memo:

- Sediment transport by the river.
- Reduction in flow velocity at the mouth.
- Deposition leading to land formation.

## Question 3: Map Skills

Sample Question:

Using the provided topographical map, identify the highest landform and justify your answer.

Model Answer:

The highest landform is the mountain located at grid reference [insert reference], with an elevation of [insert elevation], as indicated by the contour lines that are closely spaced and marked with the highest altitude.

Tips:

- Recognize contour lines and their significance.
- Use elevation markings.
- Justify with map evidence.

## Question 4: Urbanization Impact

Sample Question:

Explain two effects of urbanization on the environment.

Model Answer:

- Increased Pollution: Urban areas produce more waste and emissions, leading to air and water pollution.
- Loss of Vegetation: Urban expansion results in clearing of natural vegetation, reducing biodiversity and contributing to land degradation.

Memo Highlights:

- Use specific examples.
- Include environmental and social effects.
